SmartyPup Driver Installation Instructions for Windows XP, Vista and Windows 7

1. Turn on the SmartyPup using the switch on the bottom of the pup. (The switch has 'off', "low" and "high" volume positions.) Press the SmartyPup's paw to ensure it is turned on. It should start to move and speak. Press it a second time to stop the pup from playing.
2. With the switch on the bottom of the pup turned on, plug the USB cable into the back of the SmartyPup, and plug the other end into the USB port on your computer.
3. The computer will detect the pup and install the drivers automatically in the background. The AutoPlay window may open asking if you want to open the folder to view the files. Select No. There is no need to view the files since they will automatically install in the background.
4. You are now ready to install the SmartyPup Song Downloader software. Proceed to the SmartyPup Song Downloader Installation Instructions in this manual to complete installation.

SmartyPup Song Downloader Installation Instructions for Windows XP, Vista and Windows 7

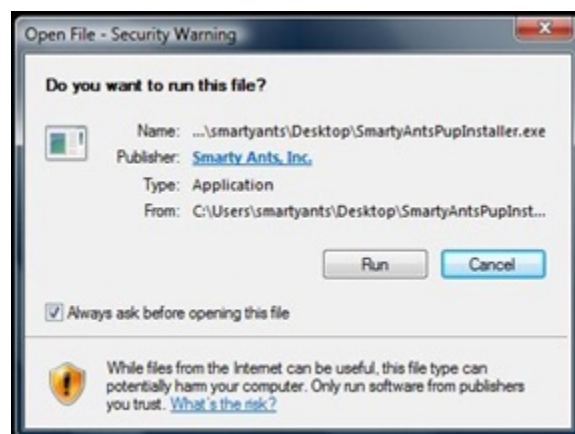

1. Download the SmartyPup Song Downloader Installer file from the following URL:
www.smartyants.com/PCPup.zip

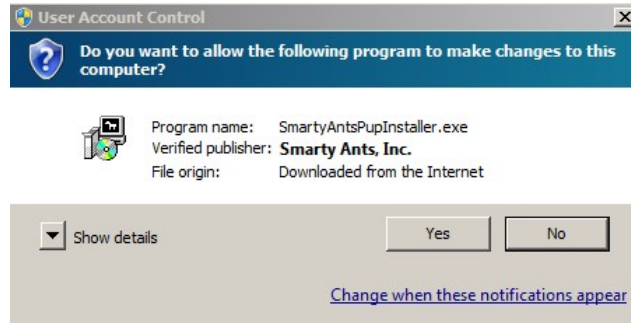

2. After the file downloads, if it doesn't automatically open, unzip it by double clicking on the file **ReadingPup.zip**.
3. In the Reading Pup folder, doubleclick on the file **SmartyAntsPupInstaller.exe** and installation will begin.
4. When installation is complete, installation may start automatically. If it does not, locate the SmartyAntsPupInstaller.exe file in your downloads folder and double click the SmartyAnts Pup Installer icon to launch the installer.

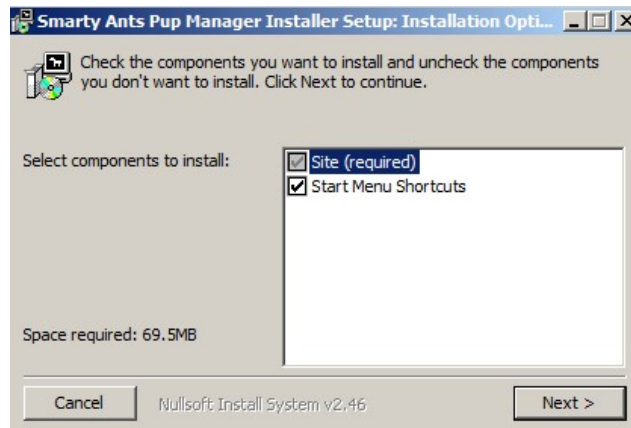

5. The following window will appear. Click the **Run** button to begin the installation process.

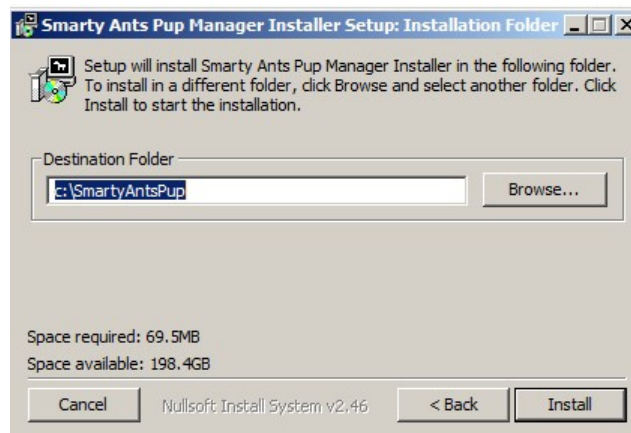

You may be asked if you want to allow the program to make changes to the computer. Click Yes.

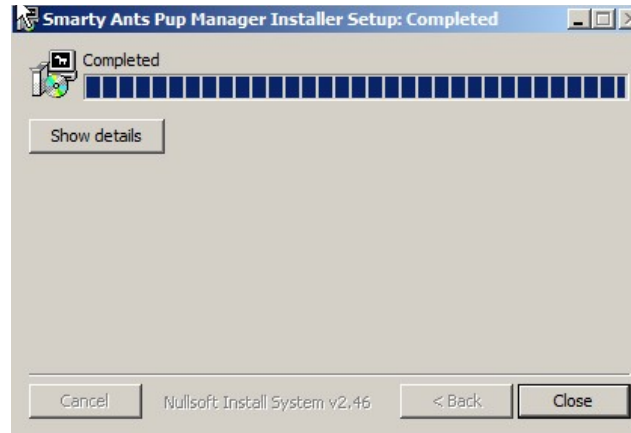

6. Check both available boxes and click the **Next** button.

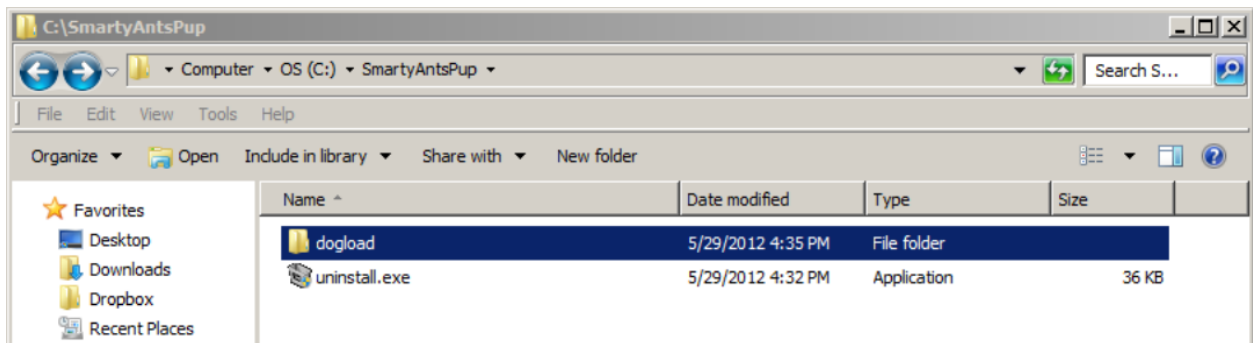

7. Click the **Install** button to install the software. The SmartyPup Song Downloader software will begin installing. A progress bar will appear showing the installation progress.

- When the installation is complete you will receive a completed message.

- To add a shortcut to your desktop, navigate to Computer>(C:)>SmartyAntsPup>dogload

- Right click on the SmartyAntsPup file and select the **Create Shortcut** menu option.

| Name | Date modified | Type | Size |
|-------------------|----------------------|-----------------------|-----------|
| opcode.dll | 11/12/2010 10:24 ... | Application Extens... | 496 KB |
| resfiles | 12/14/2010 9:18 AM | Text Document | 2 KB |
| scripts.mix | 12/14/2010 7:57 AM | MIX File | 715 KB |
| SmartyAntsPup | 12/14/2010 9:29 AM | Application | 12,132 KB |
| SNC715FAT.dll | 11/12/2010 3:09 AM | Application Extens... | 60 KB |
| SNxMusic96Dec.dll | 12/2/2010 11:35 AM | Application Extens... | 80 KB |

- Drag the shortcut to the desktop and you will now be able to launch the SmartyPup Song Downloader application by double clicking on the icon.

SmartyPup Driver Installation Instructions for Mac OS 10.7 (Lion)

1. To use the SmartyPup on a computer with OS 10.7 (Lion), you must first start the computer in 32-bit mode. To do this:
 - a. Turn off the computer.
 - b. If you are using a wireless keyboard or mouse, plug in a USB keyboard and/or mouse.
 - c. Hold down the 2 and 3 keys on the keyboard.
 - d. Turn on the computer and keep holding the 2 and 3 keys down until the desktop or login screen appears.

2. Confirm the system is now in 32-bit mode by:
 - a. Click on the Apple in the upper left corner of the desktop.
 - b. Choose **About This Mac** from the **Apple** menu.
 - c. Click More Info.
 - d. Click System Report.
 - e. Click Software in the Contents pane on the left.
 - f. Look for "64-bit Kernel and Extensions: No" under the System Software Overview heading.

3. Now, continue with the SmartyPup Driver Installation following the steps on the following page for SmartyPup Driver Installation for Mac OS 10.5 and 10.6.

NOTE: When you restart your computer, it will return to its normal 64-bit operating mode. Each time you want to change the songs on your SmartyPup you will need to start your computer in 32-bit mode by following steps 1 and 2 above.

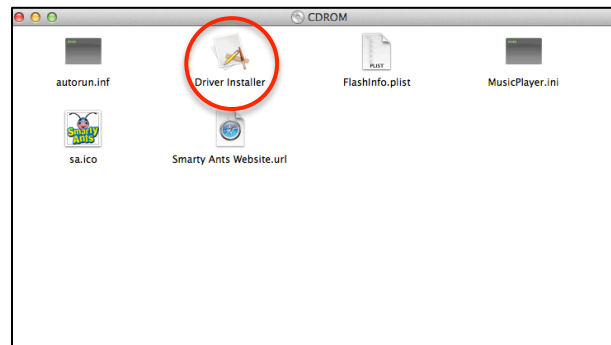

SmartyPup Driver Installation Instructions for Mac OS 10.5 and 10.6

NOTE: Do not use these instructions for OS 10.7 (Lion). Instead, follow the directions in this manual for Mac OS 10.7 Lion.

1. Turn on the SmartyPup using the switch on the bottom of the pup. (The switch has 'off', "low" and "high" volume positions.) Press the SmartyPup's paw to ensure it is turned on. It should start to move and speak. Press it a second time to stop Pup from playing.
2. With the switch on the bottom of the pup turned on, plug the USB cable into the back of the SmartyPup and plug the other end into the USB port on your computer.
3. A CDROM icon will appear on your desktop.

4. Double click the **CDROM** icon.
5. Double click the **Driver Installer** file.

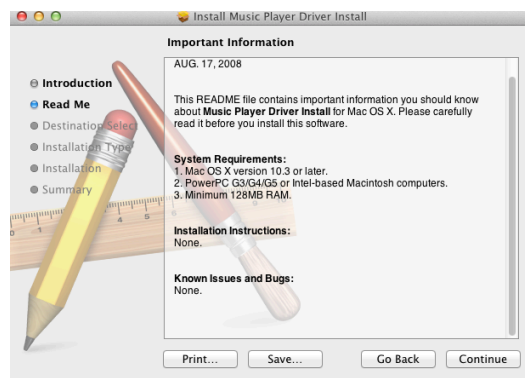

6. Click on **Install Drivers**.

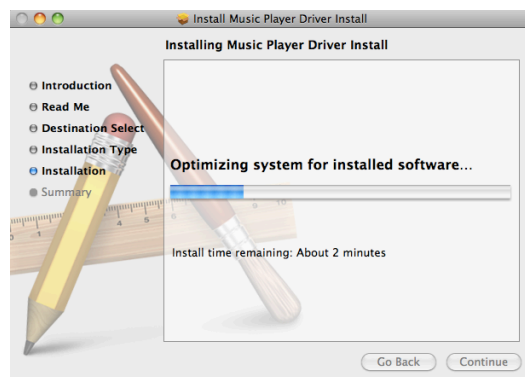

7. Click Continue.

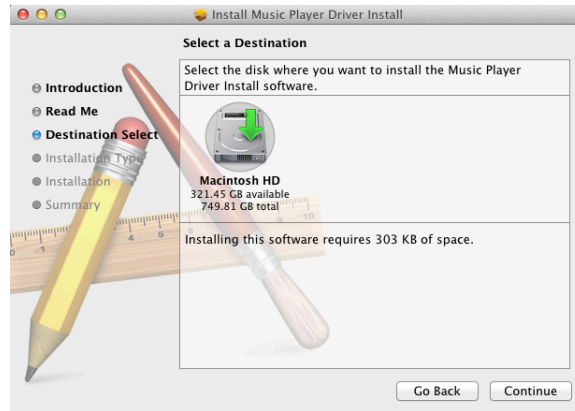

8. Click **Continue** at the next prompt.

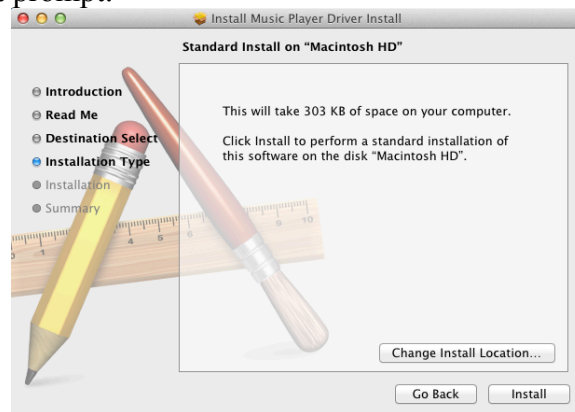

9. The following window will appear. It will take approximately two minutes to install.

10. Select the destination for installation and click **Continue**.

11. Click **Install** at the next prompt.

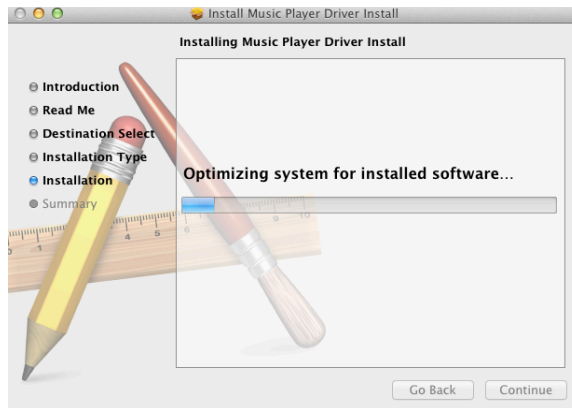

12. You may be asked to enter your password for your computer. If so, enter your password and click **Install Software**.

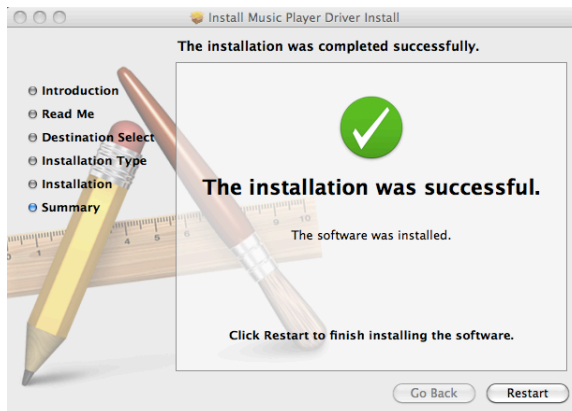

13. Click Continue Installation at the next prompt.

14. The progress window will appear while the drivers are installing. It will take approximately two minutes to install.

15. When the files are finished installing, you will see this window. Click the **Restart** button to restart your system and complete the driver installation process. When the computer restarts, proceed to the **Song Downloader Install Instructions for Mac** in this manual.

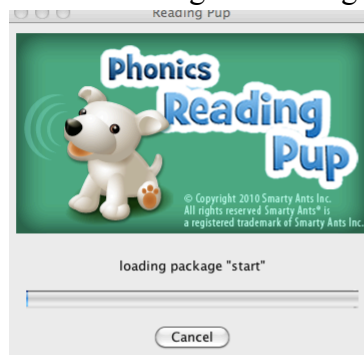

SmartyPup Song Downloader Installation Instructions for Mac

1. Download the SmartyPup Song Downloader Installer file from the following URL:
www.smartyants.com/MacPup.dmg
2. After the file downloads, unzip it by double clicking on the file **ReadingPup.zip** in your **Downloads** folder.
3. The file that is extracted is the application launcher. Drag this onto your Desktop.

ReadingPup.app

4. Double click the **ReadingPup.app** icon to launch the installer. After a moment, the SmartyPup Song Downloader software will begin installing.

5. When complete, the SmartyPup Song Downloader will open automatically. If it does not, just click on the Reading Pup icon on your desktop to open it.

How to Use the SmartyPup Song Downloader

NOTE: If you are Using Mac OS 10.7 (Lion), first start your computer in 32-bit mode by following the directions on page 5 before proceeding with the directions below.

1. Turn on the SmartyPup using the switch on the bottom of the pup. (The switch has 'off', "low" and "high" volume positions.) Press the SmartyPup's paw to ensure it is turned on. It should start to move and speak. Press it a second time to stop the pup from playing.
2. With the switch on the bottom of the pup turned on, plug the USB cable into the back of the SmartyPup, and plug the other end into the USB port on your computer.
3. Launch the SmartyPup Song Downloader application by clicking the shortcut on the desktop.

ReadingPup.app

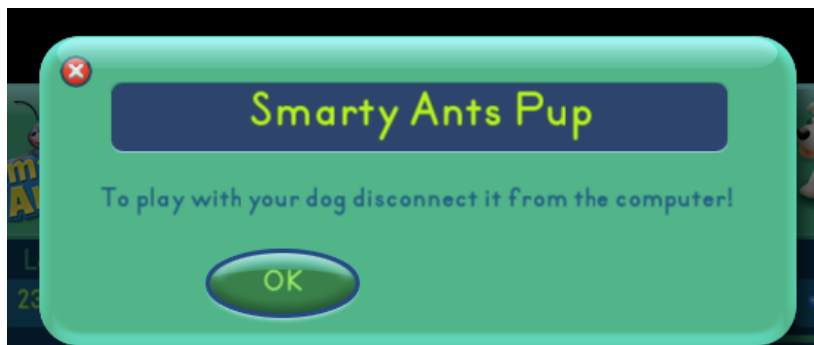

4. The Song Downloader will launch.

5. Select the lesson you want using the arrows under the Lesson column on the left.
6. Select the songs you want from the lesson column on the left by clicking on one at a time.
 - a. Click the **play** button to preview the songs.
 - b. Click the **add** button to move the selected songs into the Favorites list on the right to be downloaded to the SmartyPup.

- c. Click the **set all** button to add all songs to the list on the right.
 - d. To remove a song from the list of songs to be added, select the song and click the **delete** button.
7. To save the list of songs as a Favorite, click **Save** and enter a name for the list when prompted.
 8. To download the songs, click the **Download** button.
NOTE: The Pup can hold about 15-20 songs and stories at one time depending on their length. If your Pup does not have your selected stories and songs on it after download completes, reduce the number of files you are attempting to download to the SmartyPup.
 9. When finished, you will receive the following message:

12. Disconnect the Pup from the computer and press a paw to begin using your SmartyPup.
